

The Why

I wanted to showcase my figma design capability in a way that goes beyond a resume and cover letter template.

Pages:

- **Style & Wireframes Page**- this page contains the wireframes, stylesheet, and component library used to make the résumé and the cover letter. It also is the source of all inspiration that I used to create the résumé.
- **Prototype Page**- This page is the template used for the résumé and cover letter. Please feel free to click and view the Figma styling used to construct each page or view as a prototype.
- **Archive Page**- I have included some of the samples that ultimately did not become the final design but still contributed to the design.

Goal:

- Create a resume that is easy for all readers, especially those with visual impairments and color related accessibility needs.
- Showcase all information in a simple format that displays information without crowding the page.
- Use color and font styling to represent my personal style: strong, elegant, and energetic

OBJECTIVE

Dynamic and results-driven marketing professional with 5 years of experience in digital marketing and social media management. Seeking a challenging role where I can leverage my expertise in content creation, campaign optimization, and data analysis to drive brand awareness and customer engagement.

WORK EXPERIENCE:

Senior Marketing Manager | Nicolas, Bogan and Schoen

New York, NY, May 2019 - Present

- Developed and implemented comprehensive marketing strategies resulting in a 30% increase in customer engagement.
- Led a team of 5 marketing professionals, providing guidance and support to achieve departmental goals.
- Spearheaded the launch of three successful product campaigns, exceeding sales targets by 20%.

Marketing Coordinator | Hodkiewicz Ltd

Los Angeles, CA, September 2016 - April 2019

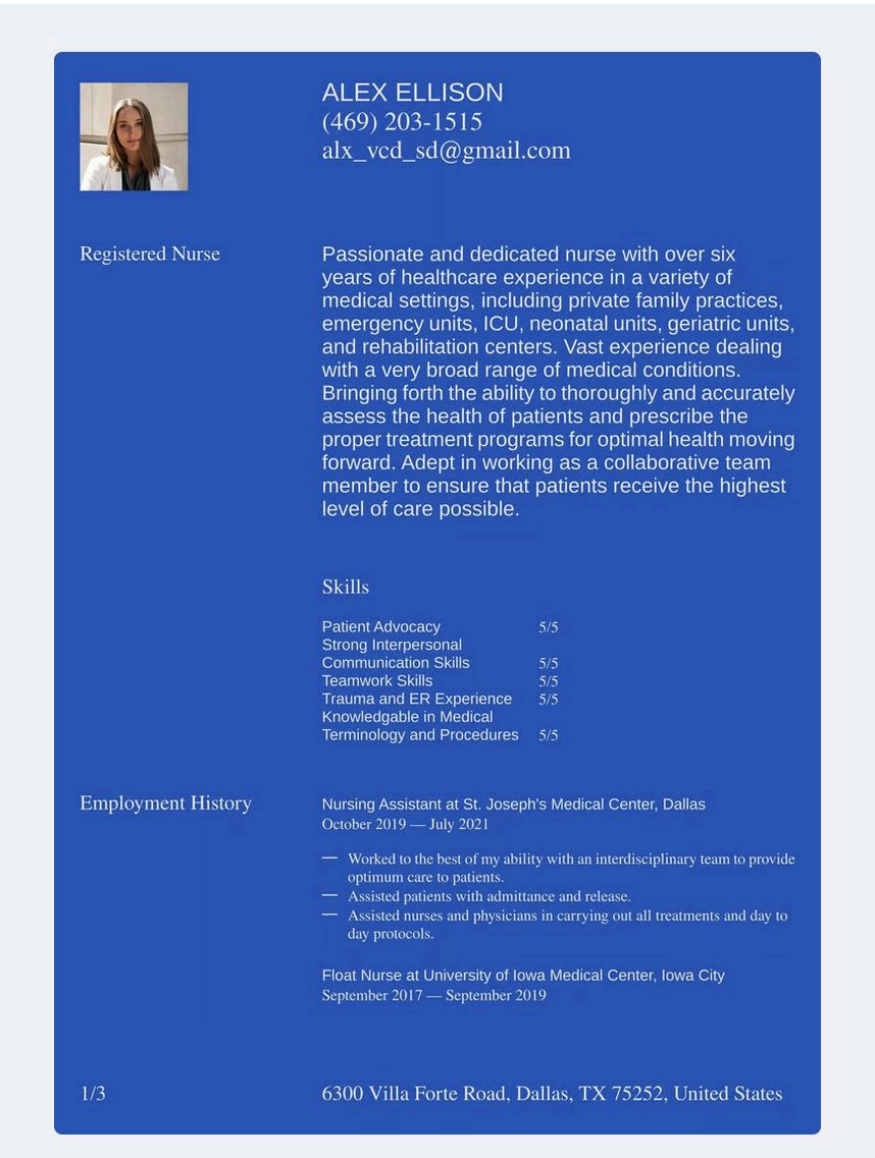

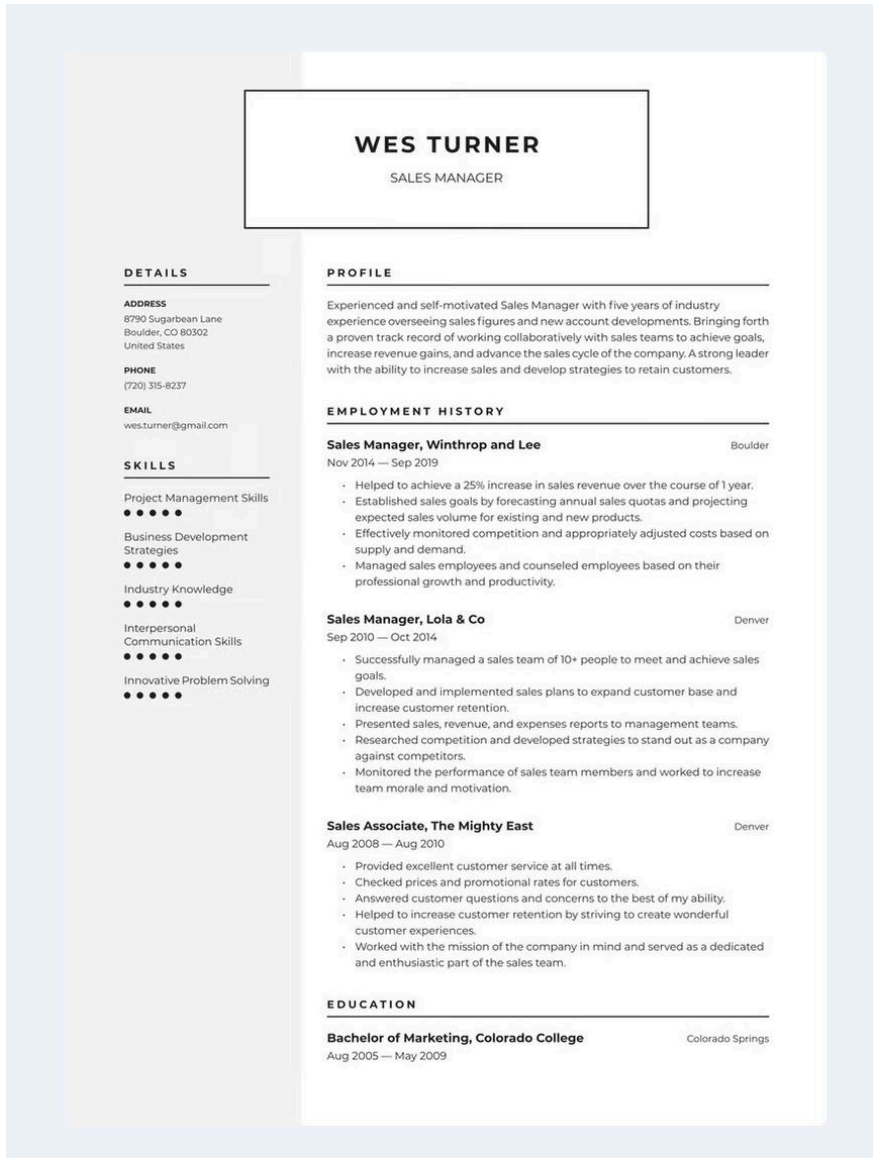

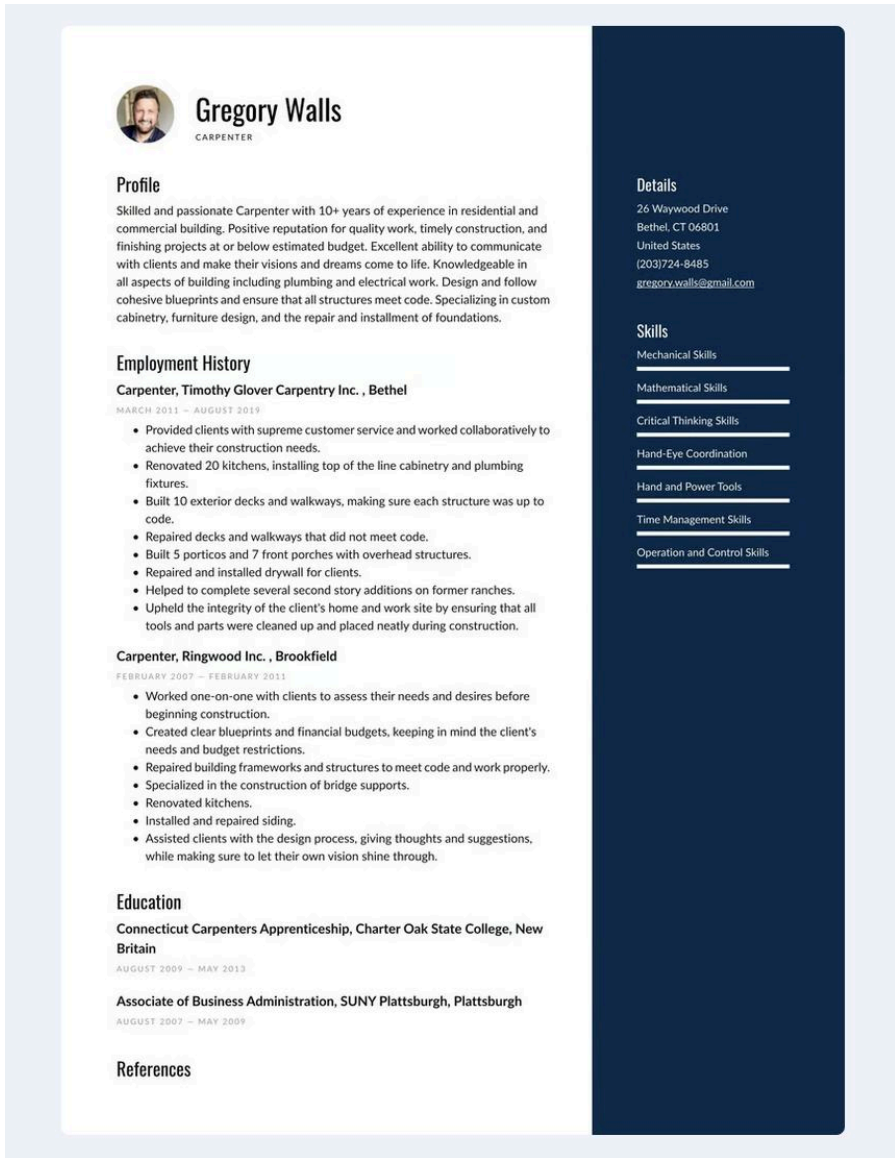

- Coordinated all aspects of marketing campaigns, including social media, email, and print advertising.
- Conducted market research and analysis to identify emerging trends and opportunities for growth.
- Collaborated with cross-functional teams to ensure alignment of marketing efforts with overall business objectives.

Intern, Marketing Department | Hilpert-Hauck

Chicago, IL, June 2015 - August 2016

- Assisted in the development of marketing materials, including brochures, presentations, and press releases.
- Conducted competitive analysis to identify areas for differentiation and improvement.
- Supported the team in organizing and executing promotional events and campaigns.

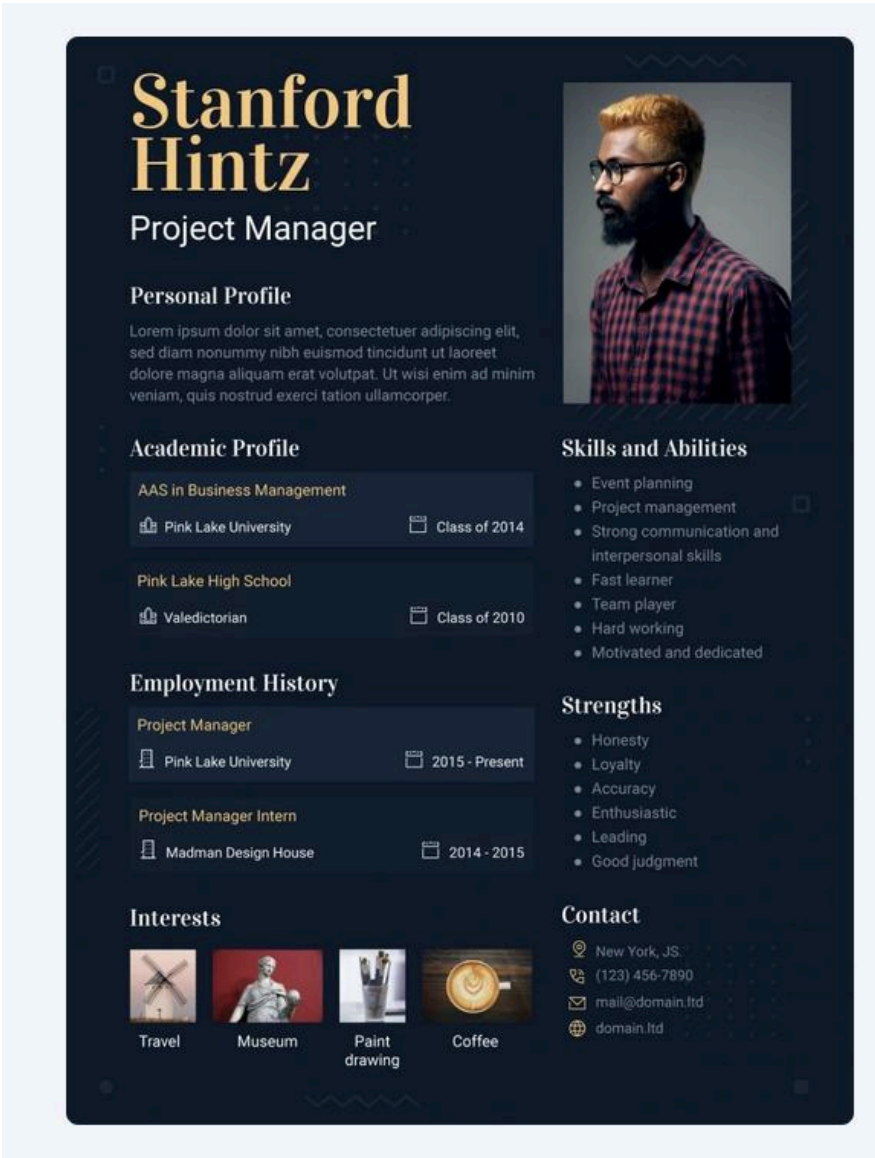

Brief Analysis

- Picture, title, and profile section are nicely spaced. Lengthy profile section would potentially take space from other areas
- Really like the sidebar but not the skills listed vertically. Empty space may feel strange
- Do like the display for employment history, but must note it works for only 2 jobs on resume

- Format for name feels very clean and I love how attention grabbing it is.
- Side bar is nice to have and well spaced but unnecessary icons under skills can be confusing for the viewer
- All center text is well displayed with smaller bullets allowing for more work to be added
- Line breaking sections adds to the display nicely

- Colorful background is refreshing to see, maybe less bright but letter contrast is still visible
- Really like the top image with contact information easily available, maybe a bit larger for the font
- Body navigation is difficult to follow but could be easily adjusted in different instance
- Adding the address at the bottom feels really cool

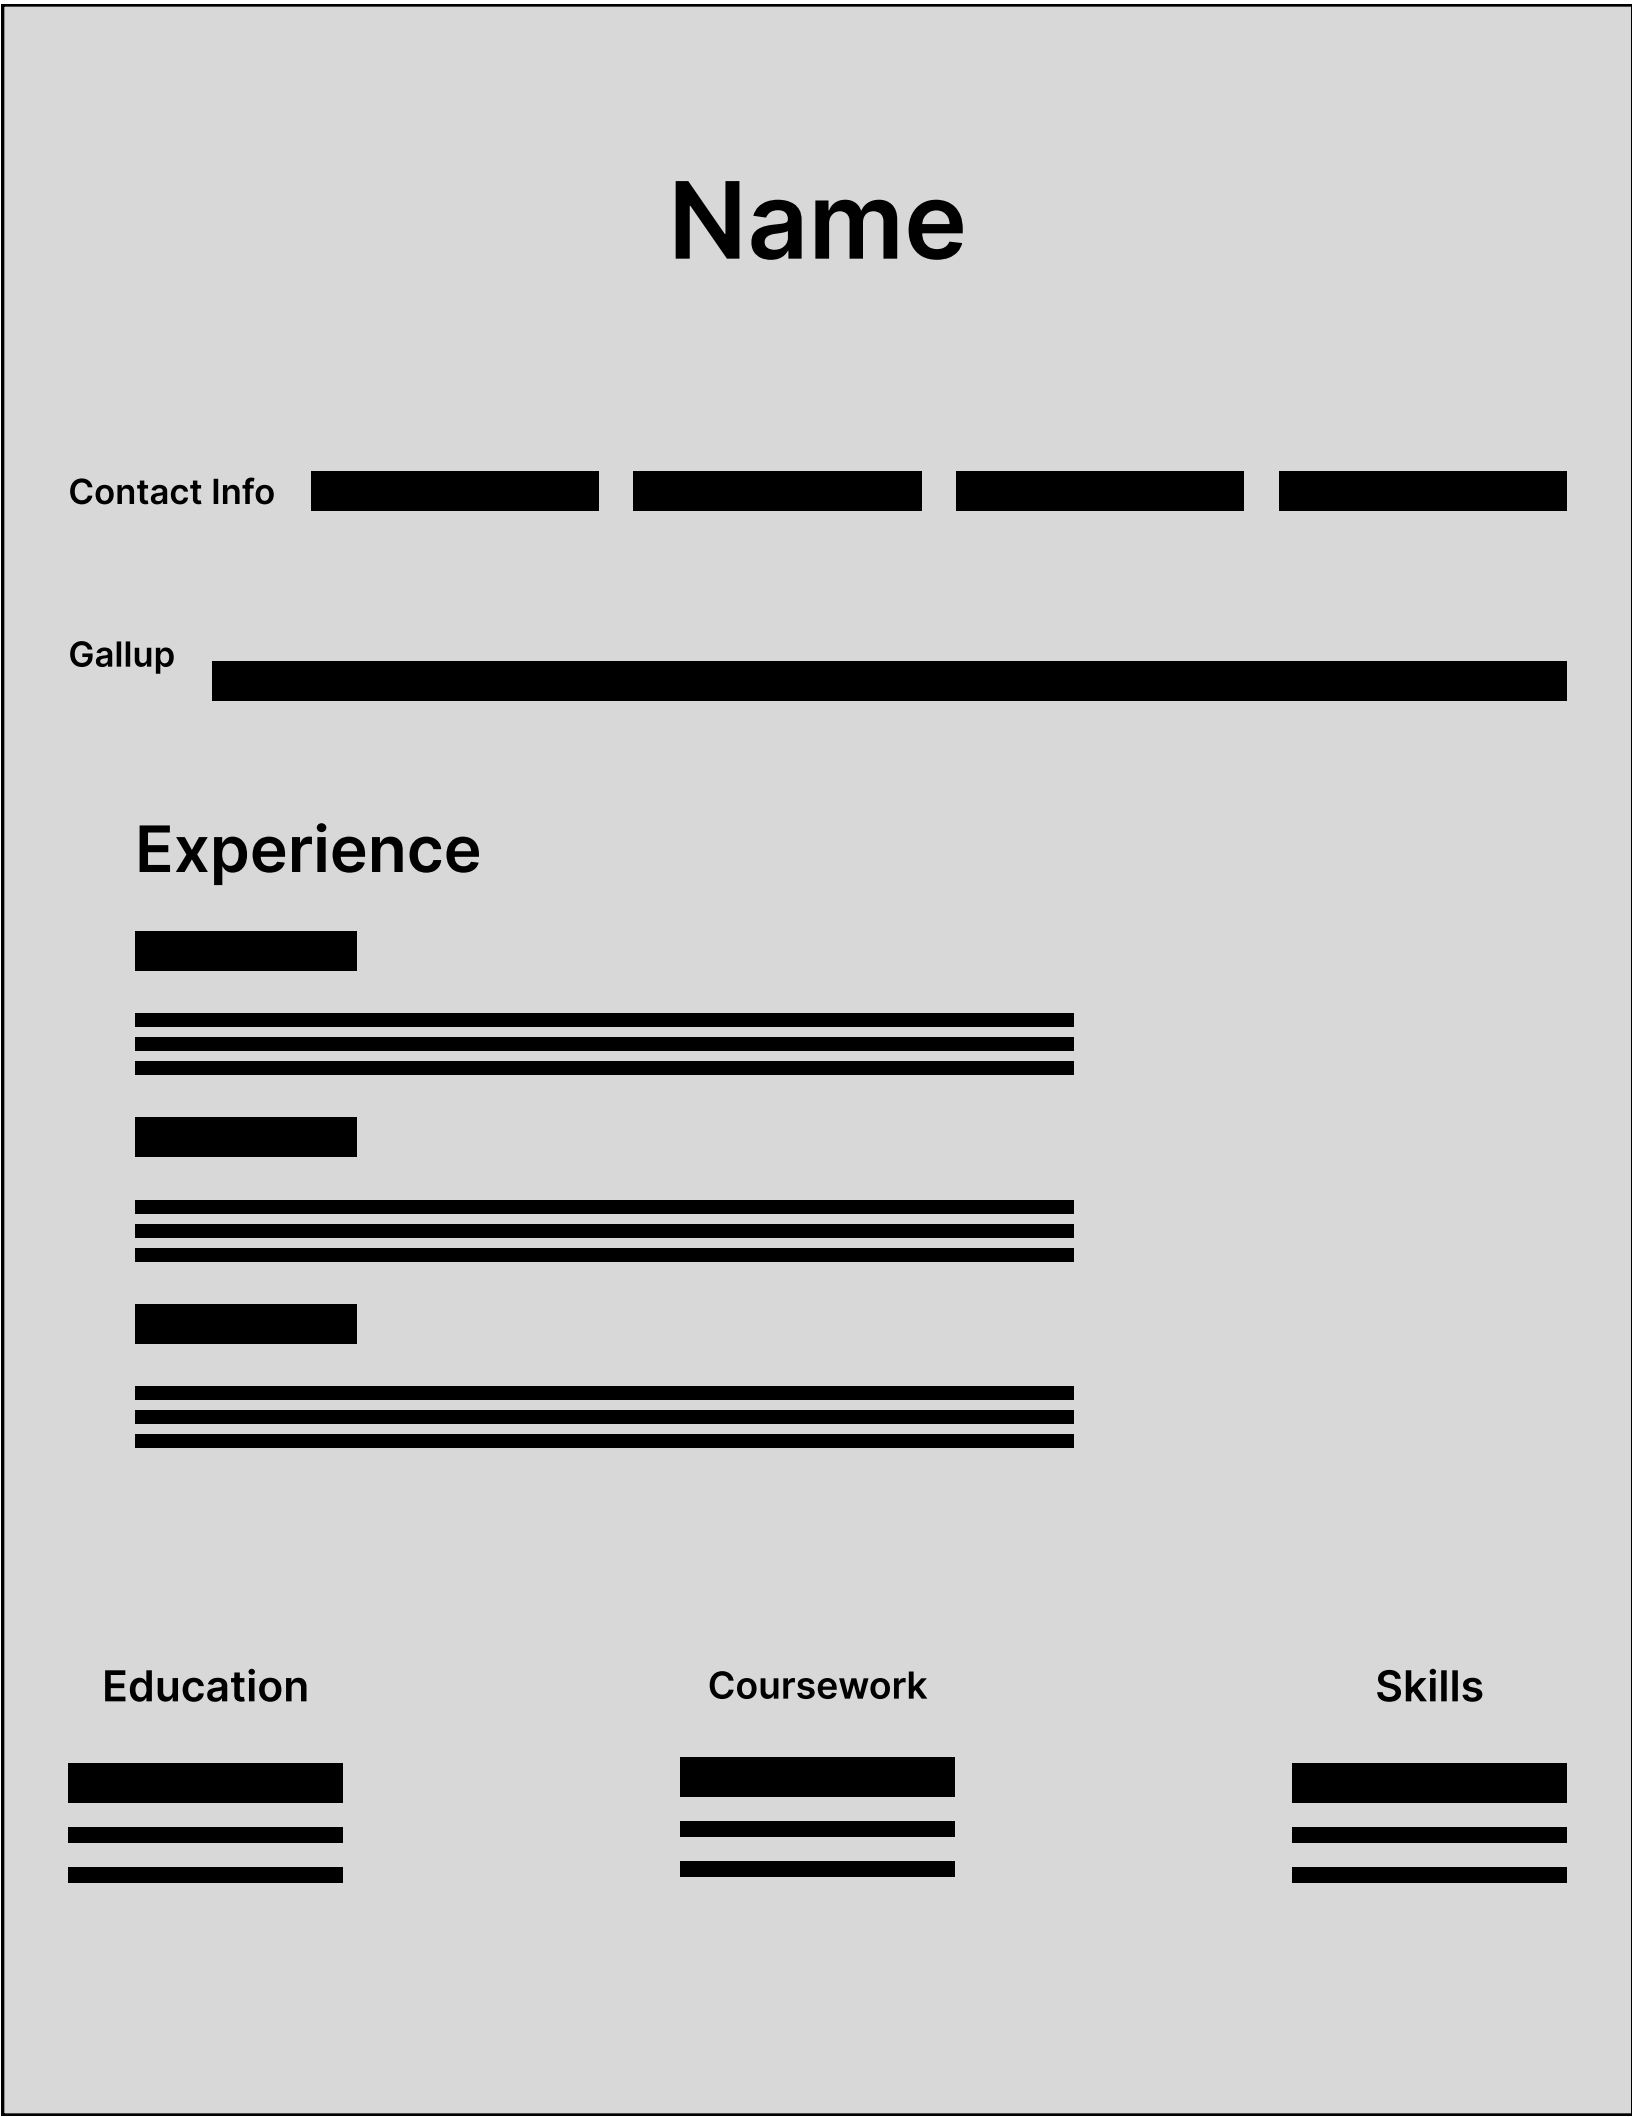

- Pop of color on the header adds fun and class, also works well to highlight the name
- Sub-headers feel really clean and organized
- Vertical line divider really helps separate work without requiring a color block
- Love the side bar for including relevant coursework and interests without crowding the page

- Minimalist icons around corners of the page and the dark color makes it feel fun
- Large heading stands out well without taking up too much space
- Body does not include room for text so difficult to get full resume needs. Could potentially get room back from interests section
- Side bar is easy to follow because of sub-headers

- Logo is a nice addition next to the name and title
- Color combination is fun but still calm
- Side bar is spacious and icons are a cute touch for contact information
- Body is well defined but font could be bolder/darker

Wireframe

The wireframe had multiple iterations from paper to archival work. The final design was established after testing the colors, font sizes, and finally the data. Once the required information was added and the font was selected, the resume felt impersonal. I added the Gallup strengths to the page because it allowed me to share what words describe me best.

The cover letter wireframe was designed after the resume was completed. It is meant to match the resume design exactly.
